

# COPD UPDATE

**Course information:**

COPD is known to affect over 900,000 people in the UK and the British Lung Foundation has discussed the 'missing millions' of patients who are suffering from this condition but yet to be diagnosed.

This update will consolidate your knowledge and give you current information on COPD.

This update is suitable for any health care professional working with COPD patients who have already had some formal COPD training/education.

This study day is delivered by expert practising clinicians.

**Outline content:**

Making the diagnosis/differential diagnosis

Screening

Overview of Spirometry

Pharmacological/Non pharmacological treatments (what's new on the horizon)

Management of Exacerbations

Oxygen Therapy

End of Life in COPD
