

ROTHERHAM RESPIRATORY

ROUNDUP JULY 2024

*Part-funded
Bronchiectasis
course places
available.*

WORLD BRONCHIECTASIS DAY

We started the month off with World Bronchiectasis Day this July 1st.

If you want to expand your bronchiectasis knowledge, we've designed a course that will allow you to:

- ✓ Recognise the signs and symptoms of bronchiectasis
- ✓ Understand how bronchiectasis is diagnosed
- ✓ Appreciate the impact of living with bronchiectasis
- ✓ Discuss the management of bronchiectasis, including the treatment of exacerbations
- ✓ Explain self-management strategies.

This course is suitable for any healthcare professional working in primary care/community settings, who is involved in the care of patients with bronchiectasis. The course covers epidemiology, pathophysiology, diagnosis, treatment options, self-management strategies, and exacerbation management.

The 7.5-hour course can be completed anytime within a month and costs only £195+ vat.

BEVERLEY BOSTOCK**

FREE WEB SEMINARS NOW AVAILABLE!

Interested in expanding your knowledge from the comfort of your home? We now share all available free web seminars over on our website. Check out the page and register to join us! [Click here to find out more.](#)

HOW MANY HEALTHCARE PROFESSIONALS HAVE ROTHERHAM RESPIRATORY HELPED?

We're proud to say that we've delivered a wide range of recognised and accredited education in long-term conditions to over 24,758 healthcare professionals!

Yes, over 24,758 primary and secondary healthcare professionals have chosen to trust our educational courses to develop their skills and knowledge. Many of those were returning healthcare professionals, too, because they loved our courses!

The BreathingSpace Choir is always happy to accept new members 🎵

BREATHINGSPEACE CHOIR

Let us introduce you to the BreathingSpace Choir, an initiative for respiratory patients in our local area.

Singing has been shown to offer numerous benefits for these patients.

At Rotherham Respiratory, we're proud to sponsor the BreathingSpace Choir and support this great team as they make even greater music!

OUR NEW HYPERTENSION COURSE IS LIVE!

By the end of this course, learners should be able to:

- Recognise the impact of hypertension on individuals and society, including its contribution to other co-morbidities and mortality.
- Explain the normal mechanisms of blood pressure control.
- Develop increased confidence in the practicalities of accurate blood pressure measurement and the methods used to detect hypertension.
- Examine the relevant risk factors that contribute to the development of primary hypertension and gain insight into the causes of secondary hypertension.
- Identify medications that can be used to manage hypertension safely, with reference to current evidence-based national guidelines
- Identify the key aspects of a hypertension annual review.

Ready to boost your knowledge and confidence in diagnosing and managing hypertension in your patients? [Apply for our brand-new Hypertension course now.](https://rotherhamrespiratory.com/)
