

ROTHERHAM RESPIRATORY ROUNDUP

OCTOBER 2024

WE'VE BEEN BUSY!

WE RECENTLY ATTENDED THE PCRS CONFERENCE.

This year, the three-day conference at the Telford International Centre was packed with:

- Thought-provoking, interactive and inspiring keynote plenary presentations
- Patient-centered, essential clinical updates
- Key service development and commissioning sessions
- Scientific research presentations
- Practical workshops.

Not only did we attend, but some of our educators also shared their wealth of respiratory knowledge and expertise too! Our course tutor, Bev Bostock, drew one of our winners, Ruth from Lincolnshire. Ruth chose our Interstitial Lung Disease (ILD) Foundation Course as her free course. You can learn more about our ILD Foundation Course [here](#) and apply.

We hope you enjoy your free course, Ruth!

ASTHMA AND LUNG UK

Asthma and Lung UK are delighted to feature their resources in Rotherham Respiratory's course materials. You can find out more about the range of health advice leaflets and support for Healthcare Professionals at their HCP Hub [here](#).

FREE WEB SEMINARS

Join us on Thursday 21st November at 1pm. Anne Rodman will be hosting an unmissable web seminar – 'Breathing Well - Opportunities to improve care from the National Respiratory Audit report'.

Didn't catch our latest web seminar live? No problem! You can now access the recordings at your convenience. Simply visit our page [here](#).

PART-FUNDED BRONCHIECTASIS COURSE!

Did you know you can get a part-funded place on our Bronchiectasis Course?

If you're a healthcare professional working in primary care with respiratory patients, you can get a part-funded place on our Bronchiectasis Course – which means you can save £100!

By the end of this course, attendees will have an increased knowledge of:

- Recognise the signs and symptoms of bronchiectasis
- Understand how bronchiectasis is diagnosed
- Appreciate the impact of living with bronchiectasis
- Discuss the management of bronchiectasis, including the treatment of exacerbations
- Explain self management strategies

It is part-funded by Trudell and is on a first-come, first-served basis, so if you want to save a hundred pounds on this course, book your place now!

Learn more about our Bronchiectasis Course [here](#).

WE HELD OUR FIRST FACE-TO-FACE SPIROMETRY SESSIONS AT OUR HQ!

We went back to face-to-face training in our training room at Rotherham Respiratory with Chris Loveridge. There was so much discussion and peer to peer learning from a very mixed group with a pharmacy technician, pharmacist, and specialist nurses alongside excellent practice nurses. The evaluations included comments such as:

- "I have completed the online spirometry course previously which was excellent, but I have really enjoyed the face-to-face course. Excellent course leader".
- "Amazing course tutor was excellent".
- "Enjoyable day which met my learning needs".

If you would like to book your place on the next study day. Or if you would like a consolidation day when your group have finished their online training in your area please [contact us](#).
