IT'S HEART HEALTH MONTH: INSIGHTS TO SUPPORT YOUR PATIENTS

February is the British Heart Foundation's Heart Month – a time dedicated to raising awareness about heart conditions and cardiovascular health. In the UK alone, around 200,000 new cases of Chronic Heart Failure are diagnosed each year. This staggering number highlights the importance of ongoing education and support.

We're committed to helping healthcare professionals like you provide the best possible care for patients with long-term heart conditions. That's why we offer fully accredited courses, continuously updated with the latest research and guidelines.

Looking to deepen your knowledge of heart failure or coronary heart disease? Explore our [range of heart health courses today](#).

WE ❤️ OUR 26,000+ STUDENTS

This month, we reached a huge milestone by surpassing 26,000 students!

For over a decade, we've been supporting healthcare professionals with expert-led education in long-term health conditions. It's been an incredible journey, and we couldn't have done it without you.

From all of the team here at Rotherham Respiratory, ***thank you for being part of our community!***

THE EDUCATIONAL FUND: BRONCHIECTASIS COURSE

Throughout February, we welcomed applications for fully funded places on our Bronchiectasis Course – a fantastic opportunity for healthcare professionals to learn without financial barriers.

We're thrilled to share that we received lots of applications for the Educational Fund. If you applied, we'll be in touch to let you know if your application was successful.

Missed out on the application deadline? Paid spaces are still available for our Bronchiectasis Course are still available – [click here to secure your spot](#).

FEBRUARY WEB SEMINAR: ESSENTIALS OF HYPERTENSION

To continue our Heart Health Month focus, we hosted a **free web seminar on the 'Essentials of Hypertension'**, led by [Sonia Willis](#).

The hour-long session covered:

- ✓ The pathophysiology behind hypertension
- ✓ Key risk factors & causes
- ✓ Diagnosis & classification
- ✓ Management strategies
- ✓ Complications & case discussions

Missed the live session? There's still time to learn more about this topic. View the recording [here](#).

IMPORTANT UPDATES: SPIROMETRY COURSES

Our Spirometry courses have been refreshed! Stay ahead with the latest best practices and insights by [signing up to the new and improved course here](#).

SHARING THE LOVE THIS VALENTINE'S DAY

Aorta say Happy Valentine's Day!

If you're feeling the love in your heart this February, why not invest in your professional development? Check out our heart health courses and continue making a difference for your patients.

Stay connected with us for more events, courses, and community updates!

Warm wishes,

The Rotherham Respiratory Team
