

MONTHLY NEWSLETTER

NOVEMBER | 2025

WHAT'S NEW THIS NOVEMBER?

November has been a busy month across our courses, awareness campaigns and community updates. From MedSafetyWeek and World COPD Day to a free bronchiectasis web seminar, charity fundraising and the launch of a brand-new course, here's everything we've been sharing at Rotherham Respiratory.

REMEMBRANCE DAY 2025

This month we paused to honour and remember all those who served. We [shared our thanks and respect across our channels](#), recognising the courage, resilience and dedication of those who sacrificed so much.

lest we forget

MED SAFETY WEEK 2025

For MedSafetyWeek, we encouraged healthcare professionals to speak up and report suspected side effects or device issues [through the MHRA Yellow Card Scheme](#).

Medicine safety plays a central role across our long-term condition courses, and we highlighted where learners can explore the topic in more depth.

SUPPORTING THE LONDON MARATHON 2026

We were proud to sponsor Joanne as she prepares to run the London Marathon in 2026, raising money for Hospice UK in memory of her Dad.

Thank you to everyone who has already shown support.

FREE WEB SEMINAR – SPOTLIGHT ON BRONCHIECTASIS

This month we hosted our live session, Spotlight on Bronchiectasis, led by Samantha Prigmore.

The case-study format guided clinicians through recognising, diagnosing and supporting people living with bronchiectasis.

If you missed the web seminar, the event is now [available as a recording on our website](#).

WORLD DIABETES DAY 2025

We supported Diabetes UK's Strike Out Stigma campaign and shared helpful resources for clinicians supporting diabetes care. We also highlighted our diabetes-related course content available within our long-term condition portfolio.

WORLD COPD DAY 2025

"Short of Breath, Think COPD."

To mark [World COPD Day](#), we shared a short video raising awareness of COPD, under-diagnosis and the importance of timely assessment and correct management.

SEVERE ASTHMA FOUNDATION COURSE

We've launched our latest CPD-accredited online course: the Severe Asthma Foundation Course.

This course explores severe asthma across all ages, from initial diagnosis through to management across the care pathway.

[FIND OUT MORE AND APPLY HERE](#)

CPD LEARNING FOR HEALTHCARE PROFESSIONALS

Our online courses are available year-round, offering flexible access so clinicians can upskill at a pace that suits them. Each one is grounded in real clinical practice and built to support confident, effective patient care.
