APRIL | 2026

WHAT'S NEW THIS APRIL?

This month, our team has been busy preparing and launching plenty of exciting new opportunities for our learners, including new and updated courses, web seminars, and receiving meaningful endorsements. Here's everything we've been up to here at Rotherham Respiratory.

THE EDUCATIONAL FUND IS OPEN! 🎉

We're pleased to share that applications are now open for a fully funded place on our Severe Asthma Foundation Course. Our Educational Fund is designed for those healthcare professionals seeking to enhance their knowledge without financial limitations.

The Educational Fund closes on April 30th, and there are only a limited number of places available, so this is not one to miss. Successful applicants will be notified a week after the closing date.

APPLY TODAY

NEW COURSE JUST LAUNCHED

Our course portfolio has expanded! The Paediatric Asthma Update Course is now live and ready for you to apply for.

In this course, learners will expand their knowledge on asthma, and understand how to deliver quality care to children following the most up-to-date evidence and national guidelines.

WHAT OUR LEARNERS ARE SAYING

Our Atrial Fibrillation Course is a great opportunity for healthcare professionals involved in the diagnosis and management of atrial fibrillation. Since its launch, it has received excellent feedback from our learners:

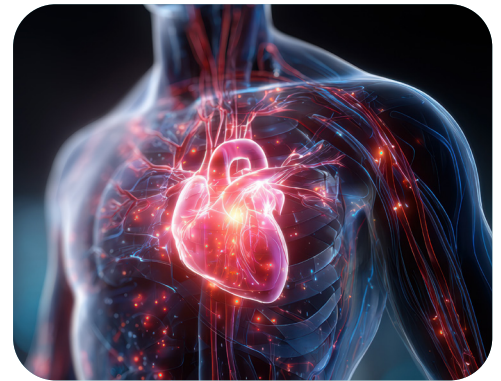

"This course was amazing and so informative. My knowledge of AF was basic but now I feel confident about all aspects of it. Beverley was such a good lecturer/speaker on this course, and obviously, she is an expert in this field. She spoke clearly, slowly, and precisely, and the sections were easy to follow. Thank you and can't wait to start the next course."

REFRESHED HEART FAILURE COURSES

Our three heart failure courses – Foundation, Advancing, and Update – have been fully refreshed and updated. These courses provide the most up-to-date information and evidence on the key issues in heart failure, aimed at helping healthcare professionals strengthen the care they provide.

Excitingly, these updated courses have now also received official endorsement from the Primary Care Cardiovascular Society (PCCS)! Committee reviewers described the series as **"excellent, well-structured and presented"**. This is an excellent achievement for our team and strengthens the value in our courses.

EXCITING NEWS: NPRANG ENDORSEMENT 🤝

We are so proud and delighted to share that our Paediatric Spirometry Reporting Course has now received an endorsement from the National Paediatric Respiratory & Allergy Nurse Group (NPRANG)!

The group aims to raise the standards and accessibility of clinical services for children and young people. Thank you to NPRANG for supporting our course.

SUPPORTING THE LONDON MARATHON 2026

It's nearly time for Joanne to run the London Marathon! We are so proud to be sponsoring as she is fundraising for Hospice UK in memory of her dad. If you're able to, there's still time to consider donating to this meaningful cause. Every donation, big or small, makes a real difference.

Thank you so much to everyone showing their kindness and support. Let's all wish Joanne the very best of luck!

FREE WEB SEMINAR: RESETTING ASTHMA CARE

Tuesday 5th May, 1pm

Our next web seminar is fast approaching, with our dedicated course tutors Bev Bostock, Samantha Prigmore, and Viv Marsh discussing asthma care and shifting practice to prevent attacks and reduce risk.

Sign up today to gain free knowledge and career development with the passionate Rotherham Respiratory team.

CHRONIC KIDNEY DISEASE COURSE

If you're ready to develop your knowledge and understanding of the diagnosis and holistic management of kidney healthcare, our Chronic Kidney Disease course is a fantastic opportunity to do so.

Covering risk factors, diagnostic tests, and pharmacological and lifestyle interventions, this course helps healthcare professionals to accurately recognise those with, and at risk of, CKD and how to prevent complications. Our course is built around case studies to help you put theory into practice.

CATCH UP ON MARCH

Last month was filled with learning and celebration. We reached 30,000 passionate learners, raised awareness of important healthcare topics, and hosted a free web seminar.
